

UW-MADISON OPEN CLASSES

Microbiology 303

Description: Biology of microorganisms

Location: Microbial Sciences Building, Room 1220

Course Time: 8:50-9:40am

Physics 241

Description: Kinetic theory; relativity; experimental origin of quantum theory; atomic structure and spectral lines; topics in solid-state, nuclear, and particle physics

Location: Chamberlin Hall, Room 2241

Course Time: 8:50-9:40am

Materials Science & Engineering 350

Description: The basic structures and resulting properties of solid materials

Location: Wendt Commons, Room 324

Course Time: 9:55-10:45 am, 11:00-11:50 am

Chemistry 345

Description: Organic Chemistry II

Location: Chemistry Building, Room S413

Course Time: 9:55-10:45 am

UW-MADISON OPEN CLASSES

Art History 202

Description: Explores the history of art produced in Western Europe and the U.S. between 1400 and 2000 in its aesthetic, political, social and cultural contexts

Location: Elvehjem Building, Room L160

Course Time: 9:55-10:45 am

Atmospheric and Oceanic Studies 171

Description: How human activities influence the air we all breathe, as we look at the science, history, and solutions to poor air quality, the stratospheric ozone hole, and more

Location: Atmospheric and Oceanic Sciences Building, Room 811

Course Time: 11:00-11:50 am

Biochemistry 508

Description: An in-depth look at how genetic information is used to build and regulate cellular molecules

Location: Biochemistry Building, Room 1125

Course Time: 12:05-12:55 pm

Entomology 201

Description: Appreciate the importance of insects in the environment and to human society

Location: Russell Labs, Room 184

Course Time: 12:05-12:55 pm

UW-MADISON OPEN CLASSES

Genetics 467

Description: Introductory course on genetics for students majoring in Genetics and Genomics

Location: Russell Labs, Room 184

Course Time: 1:20-2:10 pm

Geoscience 109

Description: Geology of the National Parks

Location: Weeks Hall for Geoscience, Room AB20

Course Time: 1:20-2:10 pm

Music 113

Description: Music in Performance

Location: Mosse Humanities Building, Room 2340

Course Time: 1:20- 2:10 pm

Chemistry 109

Description: An accelerated general chemistry offering with an approach that differs from what most students with high school chemistry backgrounds have encountered

Location: Chemistry Building, Room S429

Course Time: 2:25-3:15 pm
